I contacted David of Forward Asset Finance after I received a higher-than-normal tax bill and urgently needed to upgrade some areas of my facility at the same time.

This left me with a messy cash flow problem and it was causing me undue stress!

David made applying for and reaching a fair and competitive finance agreement easier than stealing sweets from a baby. The whole process was so quick and easy it took all the stress out the situation leaving me with the energy to deal with the usual rigours of running a small business!

I would highly recommend Forward Asset Finance to anyone looking for help and support running or growing their business or just for personal financial support!
